WAKAYA
PERFECTION™

Bula!

Welcome to Wakaya Island—the last pristine place on earth.

Wakaya is a 2,200-acre remote island in the Fiji archipelago. Here the crystal-blue water and nutrient-rich volcanic soil creates the perfect environment for growth and healing. Located just some 20 miles from Fiji's main island, it remains unspoiled, with thousands of miles of ocean separating it from the global centers of commerce and industry.

Some would say that paradise can only be appreciated relaxing in Wakaya's tepid, aquamarine waters. Others believe that true paradise is found in its precious health-giving treasures. We believe that paradise can be found wherever people are enjoying a good life and great health.

Wakaya Island is the home of Wakaya Club & Spa, an exclusive hideaway of the rich and famous. David Gilmour and his wife Jillian established this small eco-friendly resort in 1990. Here, guests experience and enjoy personal renewal, discovery and adventure through a luxurious and intimate vacation paradise.

This serene retreat provides gracious living, sophisticated international cuisine, and unparalleled leisure opportunities, including some of the finest scuba diving and snorkeling in the South Pacific.

To find out more about The Wakaya Club Resort & Spa or to book travel, visit www.wakayaresort.com.

The Story of Wakaya Perfection

Wakaya remained uninhabited for 140 years. In 1973 the island was purchased by health advocate, FIJI Water founder, and billionaire entrepreneur, David Gilmour and his wife Jillian. David quickly recognized the island contained unique healing plants and minerals due to its geographic isolation. Wakaya Perfection was founded to bring the island's unique healing treasures to the world.

David later met Todd Smith, an accomplished health advocate, successful entrepreneur and 20-year veteran of direct selling. Todd was inspired by David's story of Wakaya and proposed that network marketing would be the optimal way to share this story, and products, with the world.

A woman with long dark hair, wearing a white long-sleeved shirt and white pants, is sitting cross-legged on a light-colored mat on a sandy beach. She is looking out towards the ocean with a serene expression. The background shows a calm blue sea under a clear sky, with a soft glow of light suggesting a sunrise or sunset.

Wellness is the only paradise

Being healthy entails so much more than brushing your teeth and staying on top of yearly check-ups. Real health is something you feel all the time. It is a deep and satisfying sense of strength, unity, and vitality. We believe you should feel this way every day.

Wakaya Perfection offers organic, pure and proprietary products that help you get well, stay well, and be well, inside and out. From our exclusive collection of 100% Organic Pink Fijian Ginger, Turmeric, and Sea Salt, to our pure Calcium Bentonite Clay and Perfected Oils sourced from the finest locations in the world, Wakaya Perfection offers the world's purest and most pristine all-natural preventative healing products.

Perfection takes time, in our case eons, to create the world's richest, purest organic soil. Wakaya Perfection products are sustainably cultivated by hand, beautifully packaged, and provide a perfect way to feel better and help prevent many illnesses and common discomforts (so many of which arise from inflammation in the body).

Here on Wakaya Island, trees and plants flourish in a nutrient-rich soil created by thousands of years of natural erosion of volcanic rock. This volcanic soil is high in beneficial minerals, especially trace elements that are vital to human wellness. Due to the geographic isolation of the island, organic harvesting of these plants is a necessity to maintain the purity of the island and to ensure the health and well-being of Wakaya's culture.

Learn more about the the unique potency of Wakaya Perfection's Organic Pink Fijian Ginger and Organic Turmeric on page 9.

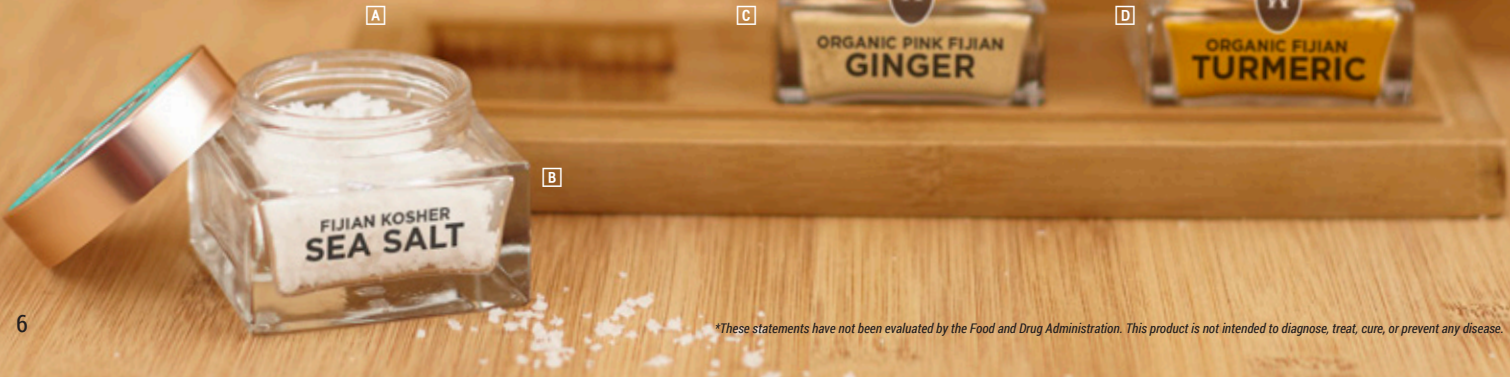

We use only the purest, freshest ingredients because what you eat matters. Our unique 100% Organic products are cultivated with care and with no chemicals, pesticides or preservatives.

There is no ginger or turmeric quite like Wakaya Perfection. They are not just supplements, but unique pristine organic microfoods. The health benefits of vitamins and minerals affect every aspect of our bodies. Unfortunately, many people today lack these essential nutrients due to poor diets and over farmed soils. These deficiencies can lead to poor health, low energy and even disease.

Our 100% Organic Pink Fijian Ginger boasts 3% higher in gingerol content, the active healing agent in ginger, than average consumer ginger purchased.

Well-known benefits of ginger:*

- May help relieve nausea and morning sickness
- May reduce muscle pain and soreness
- Is a powerful, anti-inflammatory compound
- Supports heart health and blood sugar levels
- Helps with chronic indigestion
- May reduce menstrual pain
- Promotes detoxification in the body
- Aids brain function

Our 100% Organic Fijian Turmeric boasts 5.96% of the active healing ingredient curcumin, in comparison to traditional turmeric which only contains 0.92%.

Well-known benefits of turmeric:*

- Is a potent anti-inflammatory
- Is a powerful antioxidant (127,068 ORAC)
- Supports improved brain function
- Supports heart health
- May help relieve joint pain
- May help to improve mood
- Supports healthy digestion
- Supports healthy blood sugar levels

Our highly absorbable Multi Essentials Capsules contain a full array of vitamins and minerals to help ensure that your body has the raw materials it needs to live with vibrant health.

Well-known benefits of vitamins and minerals:*

- Needed for almost every body process and function
- Supports healthy digestion and metabolism
- Promotes cardiovascular health
- Improves bone health
- Supports blood circulation and brain development
- Promotes healthy skin

Many additional benefits are being discovered each year. Search online to find current research and information.

Daily Detox Program

We are constantly being bombarded with toxins through our air, food, and water—so, why wouldn't we combat these toxins with equal frequency? Most detoxifying cleanses tend to be harsh and don't often fit our busy lifestyles. At Wakaya Perfection, we believe that mild, and easy, daily detoxification is the best way rid our bodies of these toxins.

Our Daily Detoxification System contains some of nature's most powerful detoxifying agents that can help rid the body of oxidants and other contaminants, nullifying their damaging effects. A successful Daily Detox may also aid in nutrient absorption, weight loss, and overall good health.

Nature fights back!
For centuries, our ancestors have relied on natural materials to help detoxify and balance the body.

100% Organic Pink Fijian Ginger

Contains a high concentration of gingerol that may help produce an anti-inflammatory effect on the gastrointestinal system helping to cleanse the build-up of waste and toxins in the colon, liver and other organs.

100% Organic Fijian Turmeric

Contains a high concentration of curcumin that may help stimulate production of bile. The liver uses bile to eliminate toxins and rejuvenates the cells that breakdown harmful compounds.

Calcium Bentonite Clay

Composed of aged volcanic ash and known for its ability to absorb and remove toxins, heavy metals, impurities, and chemicals.

Daily Detoxification System

① Take Organic Pink Fijian Ginger and Turmeric capsules daily

② Drink Bula DetoxCaps 4 times throughout the day
If using other Bula Cap products, drink twice a day with 2 caps per bottle.

③ Use Sava Daily Detox Masque 1-2 times a week or more as needed

Excessive chemicals and artificial ingredients can leave our bodies susceptible to poor health and chronic disorders. Daily detoxifying helps eliminate toxins and prevents their build-up in the body.
